THE REPORT  
OF THE  
PRESIDENT OF QUEEN'S COLLEGE, BELFAST,  
FOR  
SESSION 1886-87.

---

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY,—

I have now the honour of submitting to your Majesty my Report of the proceedings of Queen's College, Belfast, during Session 1886-87.

The number of Students who entered the College for the first time during the Session was 110, of whom eighty-six had matriculated in the Royal University of Ireland, one in Queen's College, Galway, and twenty-three were enrolled as non-matriculated.

I think it right to state that non-matriculated Students are permitted to attend the College classes in any department, and to read in the library, on payment of the ordinary College and class fees, and on conforming in other respects to College rules and discipline. They are not eligible for Foundation Scholarships, nor for the higher honours and prizes; and, as a rule, they are not candidates for University Degrees.

TOTAL NUMBER OF STUDENTS ENROLLED.

The total number of Students enrolled in each department during the Session was as follows:—Arts, 170; Medicine, 240; Law, 22; Engineering, 12. Of these 21 attended in more than one Faculty, so that the aggregate total of individuals enrolled was 423.

LADY STUDENTS.

Nine ladies were enrolled, and attended classes in the Faculty of Arts. All of them had matriculated in the Royal University, and one, Miss Mary Wilson, holds a University Scholarship in Modern Literature, and also the "Dr. H. Hutchinson Stewart" Scholarship in Arts. The Lady Students, by their attention and success in examinations, gave entire satisfaction to their pro-

fessors. But I have again to express my regret that the College Charter prevents the Council from giving them the rewards to which their superior attainments not unfrequently entitle them.

#### GENERAL DILIGENCE AND PROGRESS OF THE STUDENTS.

The diligence of the Students, and their progress in their several departments of study, during the entire Session, have been highly satisfactory; I am also glad to be able to report to your Majesty that their general conduct has been most exemplary. Not a single case of breach of discipline has come before the Council, or has been reported to myself. It is most gratifying to me to observe that so large a number of young men, from different parts of Ireland, and of different denominations and opinions, have, during a protracted Session, sat together in the same class-rooms, competed in the same examinations, and met almost daily in the same halls and places of recreation, showing all the time harmony, mutual respect, and good feeling. Such intercourse and training as they here enjoy, will, I venture to hope and expect, prepare them for discharging more effectively the great duties devolving upon them in their respective spheres in life.

#### REPORTS OF THE DEANS OF RESIDENCES.

I have always attached much importance to the zealous and self-denying labours of the Deans. They receive no remuneration, and this, I cannot but feel, is one of the defects of our College system. The Chaplains who give religious instruction to our soldiers, to the inmates of our workhouses, our lunatic asylums, and even our prisons, are paid; but those commissioned to attend to the moral and spiritual welfare of large bodies of Students in a University College, are expected to give their services gratuitously. I am glad to say they do so: though when they have other and most responsible duties to discharge, they cannot devote so much time and energy to the work in the College as might be desired. It is, however, satisfactory to the parents and guardians of the young men to know that clergymen approved of, and nominated by the recognized heads of their respective Churches, are commissioned by your Majesty "for the purpose of affording religious instruction to the Students of their respective creeds," in such "lecture rooms within the precincts of the College" as the Council may appoint. I think it right further to state that the Registrar is required by statute, "at the commencement of every Session to furnish each Dean with a list of the names and residences of the Students of his religious persuasion"; and the Dean is required, "at the termination of every Session, to report to the President on the general conduct of the Students under his moral and spiritual charge, and on the manner in which discipline, regarding such Students, has been observed." The Registrar, I know, discharges his duty

punctually and faithfully, and the following are the reports of the Deans :—

The Rev. Dr. Busby, Dean for the Church of Ireland, reports—

"In reference to the Church of Ireland students, I have to say that their moral conduct during the past Session has been quite satisfactory. I have, as usual, delivered lectures once a week for a large part of the Session, in the Natural History room—taking subjects of Scriptural and devotional importance.

"In my judgment the moral tone of the Students is developing higher and higher.

"J. EDWARD BUSBY, CLK., LL.D."

The Rev. Thomas Hamilton, D.D., Dean for the Presbyterian Church of Ireland, reports :—

"I beg to report that, as usual, I held a weekly class in the College during the past session, for the instruction of the Students committed to my charge, and that it was attended by a considerable number. At the end of the third term I held an examination on the subject of my prelections. At this I was enabled to offer a number of prizes through the generosity of the following gentlemen :—William Young, esq., J.P., Fenaghy; Thomas Sinclair, esq., J.P.; John Browne, esq., J.P.; and John Hogg, esq. I append the result of the examination :—First, Thomas Kirkpatrick and J. J. Pollock, equal; second, A. M. Cameron and A. Fulton, equal. *Prox. access.*—W. G. Andrews, W. A. Adams, R. M. Quin, T. Walker, F. McClelland, and J. Greer.

"I also arranged a course of Sunday Evening Sermons for Students, which were delivered in my Church by clergymen of the Presbyterian Church, and were largely attended. I have pleasure in reporting that, so far as the conduct of the students came under my notice, it was all that could be desired.

"THOMAS HAMILTON, D.D."

Rev. Alexander Gordon, M.A., Dean for Non-Subscribing Presbyterians, reports :—

"I have to report of the Students under my care during the Session 1886-7, that everything which has come under my notice has been satisfactory.

"ALEX. GORDON, M.A."

Rev. Oliver McCutcheon, Dean for Wesleyan Methodists, reports :—

"Immediately after the commencement of the Session 1886-7, I received in due course a list of twenty-seven Students who were registered as of the Wesleyan Methodist Denomination. I took such steps as were necessary to acquaint myself with their different places of abode, and to secure for them proper pastoral attention. I have not received a single complaint, nor have I heard an unfavourable rumour concerning any of them, nor have I any reason to believe that the conduct of any of them has been otherwise than satisfactory and exemplary.

"OLIVER McCUTCHEON."

#### SUCCESS OF STUDENTS AT UNIVERSITY EXAMINATIONS.

In my last Report I stated that the success of our Students at University Examinations, during the Session then closed, had been unprecedented. I now feel great pleasure in most respectfully

directing your Majesty's attention to their continued success. Nearly all our Students enter the Royal University. At the Annual Meeting of that University held in October last, Lord Enly, the Vice-Chancellor, in presence of His Excellency the Lord Lieutenant, said:—

"It will, I know, be gratifying to your Excellency to hear of the splendid success of the Belfast College, situated, as it is, near your ancestral home. This year, at our First University, Second University, and B.A. Degree Examinations, the total number of Exhibitions awarded was sixty-five, and of these the Students of Queen's College, Belfast, carried off no fewer than twenty-one; and they also won a large proportion of First-Class Honours."

It ought not to be forgotten that, in competing for honours in the Royal University, our Students labour under great disadvantages, as compared with those educated in and near Dublin. All the Honour Examinations are conducted in Dublin, some of them after the close of the Pass Examinations. This involves a larger expenditure of time and money than most of our young men can afford; and hence, not unfrequently, students of great promise content themselves with a mere pass. I said in my last Report, and now, after longer and fuller experience, I repeat my words, that the time must surely soon come when it will no longer be necessary for so large a body of Students as this College furnishes yearly to the University to go to Dublin for their examinations and degrees. They receive their education here under professors of acknowledged eminence; and I maintain that, with the assistance of a small staff of well-selected examiners from without, we could in the College conduct all the examinations with equal fairness, and with, at least, equal thoroughness. The plan I venture to propose would also have these great advantages—it would foster within the College, both among Professors and Students, originality of thought and research; it would serve largely to check the demoralizing effects of cram, which can scarcely be prevented when an examining board takes the place of a teaching university; and, what is perhaps more important than all, it would adapt itself to the special wants of the people of the North of Ireland.

Belfast now contains about 230,000 inhabitants. It is the commercial capital of Ireland, growing with amazing rapidity, developing many and various important industries, and it is the centre of a district teeming with manufactures. It is the capital of Ulster, which has a population of 1,700,000, being more than one-third of the entire population of Ireland, and nearly one-half that of Scotland. In Dublin there are two Universities side by side; in Scotland there are four. Why should Belfast not be made the seat of a University for Ulster? The present arrangements for conducting University Examinations, and granting degrees are not satisfactory; I will even say that they are not fair to the people of this town and province. The Royal University does not, and, from its constitution, cannot supply our educational requirements. Universities ought to be centres of learning distributed over a country, each shining with its

own peculiar light, and not merely reflecting the rays of some distant luminary. "The only considerations which ought to limit their number are the requirements of the country, and the means of sustaining them sufficiently." We have in Belfast an admirable nucleus for a University. We have already more than fifteen hundred graduates *alumni* of the College; we have a large body of students; we have a most efficient professorial staff; we have an excellent library and good museums; and with a comparatively small expenditure of money, our laboratories might be made fit for thorough practical training. What we specially want is independence; freedom from an external control which is not helpful. One main source of the success of Scotland as a nation is the admirable training its four Universities have afforded, at a moderate cost, to a very large portion of the middle classes. In many respects Ulster resembles Scotland. The bulk of its people are industrious, intelligent, and most anxious for higher education. They have talent, and they are always ready to turn their talent and education to good practical account, and thus to benefit their country as well as themselves. Most earnestly, therefore, and with the most profound respect, I venture on this auspicious Jubilee Year, to ask your Majesty to be graciously pleased to grant to this College a University Charter, that it may be able more efficiently to promote the great object for which it was founded, "the better advancement of learning among all classes of your Majesty's subjects in Ireland."

The statement of Lord Emly regarding the success of the Students of this College at the University Examinations held previous to October last, requires now to be supplemented; I, therefore, give a summary of the whole for the year 1886. For details and names I refer to the Appendix. The Honours and Exhibitions gained by our Students during Session 1886-87, were as follows:—At LL.B. Examination, 1 Honour and 1 Special Prize of £25; at M.A., 2 Honours, and Special Prize of £50 for superior answering in Classics; at B.A., 15 Honours and 6 Exhibitions; at Second Examination in Arts, 41 Honours and 10 Exhibitions; at First Arts, 15 Honours and 5 Exhibitions; at Medical Examinations, 15 Honours and 3 Exhibitions; at Engineering Examinations, 1 Honour and 1 Exhibition.

The University Studentship is the highest honour attainable. Its value is £100 a year for five years. One Studentship was given in "Civil and Constitutional Law, Jurisprudence, and Political Philosophy," and was gained by Andrew Boyd of this College.

The "Dr. Hutchinson" University Scholarship in Arts was gained by Mary Wilson of this College, who also holds a University Scholarship in Modern Literature.

The University Returns show that 254 of our Students passed Examinations in the several Faculties, 44 got degrees in Arts, 7 in Law, 83 in Medicine, and 2 in Engineering. The entire number of Studentships, Scholarships, and Exhibitions awarded by the University was 83, of which this College gained 29.

In addition to the above, former Students of this College

gained the following :—Cambridge University ; Alexr. Larmor, Fellowship in Clare College ; W. M.F. Orr, First Mathematician of the year ; Oxford University ; J. E. Campbell, First Mathematician of the year ; William Haldane Porter, Entrance Scholarship, Lincoln College. W. H. Porter also holds a Classical Scholarship in the Royal University. W. N. Watts, LL.D., First Class Scholarship, Middle Temple, London.

#### PROFESSORSHIP OF SURGERY.

The Chair of Surgery became vacant at the opening of the past Session by the resignation, on account of feeble health, of its former distinguished occupant, Dr. Alexander Gordon. Your Majesty was graciously pleased to appoint to the vacant Professorship, Thomas Sinclair, M.D., F.R.C.S.L., one of our own former most successful Students, who held for a short time the important position of Demonstrator of Anatomy in this College. Dr. Sinclair discharged his duties during the Session with great ability and marked success.

#### EVENING CLASSES.

Evening Classes in the Departments of Chemistry and Engineering were regularly conducted during the Session. To the Professors, who, in addition to their ordinary heavy labours, have taught those classes, the College and the people of Belfast owe a deep debt of gratitude. Were our laboratories larger and more complete, I have no doubt a much larger number of young men would take advantage of the superior means of instruction thus placed within their reach ; but unfortunately our efforts are crippled by confined laboratories and defective appliances.

#### VISIT OF HIS EXCELLENCY THE LORD LIEUTENANT.

His Excellency the Marquis of Londonderry, Lord Lieutenant of Ireland, honoured the College with a visit during the past Session, and was received with that loyal welcome which both Professors and Students have ever accorded to the Representative of Our Beloved Sovereign. Addresses were presented to His Excellency by both the President and Professors and the Students, to which His Excellency gave very gracious replies.

#### THE YEAR OF JUBILEE.

In no part of your Majesty's widespread dominions was the fiftieth anniversary of your Majesty's reign hailed with more intense feelings of joy than in Queen's College. Professors and Students alike have ever been distinguished by devoted attachment to your Majesty's person, and unswerving loyalty to the Constitution of this great Empire. They are proud to recognize in your Majesty a Queen who has not only guided with marvellous wisdom the councils of an Empire circling the globe, but of one who has also watched with a mother's solicitude and sympathy the joys and sorrows, the struggles, sufferings, and triumphs of all ranks and classes of Her people. It was with

deep satisfaction and heartfelt thanks to an overruling Providence, that the President and Professors, as representing the College, united in presenting the following Address which your Majesty was graciously pleased to receive.

"TO THE QUEEN'S MOST EXCELLENT MAJESTY.

"MAY IT PLEASE YOUR MAJESTY,

"We, the President and Professors of Queen's College, Belfast, beg to tender to your Majesty our heartfelt congratulations upon attaining the fiftieth year of your reign.

"We desire to acknowledge our deep obligations to your Majesty as the founder of this College.

"We are glad to be able to inform your Majesty in this auspicious year of Jubilee, that the College has successfully discharged the important duties for which it was founded. It has given sound intellectual training to a very large body of students from all classes of your Majesty's subjects in Ireland; and it has also laboured to infuse into their minds those principles of mutual respect, of devotion to duty, of obedience to law, and of loyalty to the Throne and Constitution, which form the basis of national peace and prosperity.

"We gratefully cherish the memory of your Majesty's visit to the College, accompanied by His Royal Highness the Prince Consort, whose early removal we, in common with the entire nation, deeply deplore. We venture to express the earnest hope that your Majesty may be graciously pleased ere long to honour us with another visit.

"We look back with great satisfaction and pride to the advances made under your Majesty's wise and beneficent rule in the education of your people, in science, useful arts, and inventions, in the amelioration of the labours of the operatives of both sexes, and in the general improvement of the habits and tone of society.

"We have noted with very special gratification and thankfulness your Majesty's unceasing solicitude for the welfare of your people, from the highest to the lowest, in ever speaking words of Christian comfort, and sending messages of touching sympathy, to the suffering and the bereaved, to the sick, the wounded, and the dying, at home and abroad. Your devoted people have thus been made to feel that they have a place in their Queen-Mother's heart.

"We devoutly hope and trust that God may long spare your Majesty in health and happiness to reign over this great United Empire.

"Signed on behalf of the President and Professors.

"J. L. PORTER.

"24th May, 1887."

In the Appendix I have inserted tables giving full statistics regarding the Students, the Courses of Lectures, the Professors and Officers, the Benefactors of the College, and the Bursar's Accounts.

I have the honour to be

Your Majesty's most dutiful servant,

J. LESLIE PORTER,

President.

Queen's College,

TABLE XI.—BENEFACTORS of the QUEEN'S COLLEGE, BELFAST,  
since its Foundation in 1845.

ANNO.

1847. Presented by Charles Davis, Esq., a large oil painting of the Assassination of Peter Martyr, by Atkins, being a copy of the original painting by Titian.

— Presented by Professor Craik, a portrait of Confucius.

1851. The Governors of the Armagh Observatory, with the sanction of Her Majesty, transferred to the Queen's College, the Transit Instrument and Astronomical Clock, which were formerly in the Observatory at Kew.

The Lords of the Admiralty, on the recommendation of the Astronomer Royal of England, acceded to an application from Professor Wilson for transferring to the College a Mural Circle by Jones, which had been in use at the Cape of Good Hope.

For the reception of these instruments an Observatory was erected on the College grounds, the expense having been defrayed by subscription.

1854. Presented by W. P. Wilson, Esq., M.A., former Professor of Mathematics in the College, a Bust of Sir Isaac Newton.

1855. Presented by Robert H. Lynn, Esq., London, an oil portrait of James the First of England, when a child, an oil portrait of George Buchanan, and an oil portrait of John Milton.

1860. An oil portrait of Hugh Carlisle, M.D., former Professor of Anatomy and Physiology in the College; presented by the subscribers.

1864. Given by R. M. Wilson, Esq., an Exhibition of Twenty Pounds to be conferred annually upon one or more of the most deserving unsuccessful candidates for a Scholarship of the First Year.

This Exhibition was awarded for eleven years.

1864. Given by the Royal Academical Institution, Belfast, two Exhibitions of Five Pounds each, to be conferred annually upon students from that Institution who have taken the highest places in the Literary and Science Divisions, at the Examination for Scholarships of the First Year.

1866. Given by John Charters, Esq., an Exhibition, value Fifteen Pounds, and two Exhibitions, value Ten Pounds each, in the Literary Division of the Faculty of Arts; also one Exhibition, value Fifteen Pounds, and two, value Ten Pounds each, in the Science Division of the Faculty of Arts, to be called the "Charters' Exhibitions," and to be annually awarded during ten years, at the Examinations for the Literary and Scientific Scholarships of the first year, to students who, during at least one year previous to their entrance into college, have been in continuous attendance at the Royal Academical Institution, and who have attained the standard of excellence required at the Junior Scholarship Examinations. Also, an Exhibition, value Fifty Pounds, tenable for one year, to be called the "Charters' Medical Exhibition," to be annually awarded during ten years, in connexion with the Belfast School of Medicine, by the Trustees of the "Charters' Educational Fund."

This Exhibition to be conferred by a Special Examination in Medicine and Surgery, chiefly of a practical character, and to be open to any Medical Student to compete, provided he does not possess either a Medical or Surgical qualification.

- An oil portrait of William Burden, M.D., former Professor of Midwifery in the College; presented by the subscribers.

Anno

1868. Bequeathed by Robert Sullivan, Esq., LL.D., Barrister-at-Law, the sum of Four Thousand Pounds for the endowment of Three Scholarships in the Queen's College, Belfast, to be called the Sullivan Scholarships, two of them to be restricted to candidates who shall have acted as Teachers or Assistant Teachers in Irish National Schools for at least two years, and one of them to candidates who shall have been educated in the Royal Academical Institution, Belfast, for at least three years.

These Scholarships are tenable for three years.

1869. Given by William Costes, Esq., a prize, value Thirty Pounds, to be called "The Costes Prize," and to be awarded in the Department of Engineering to the best candidate in a set of Examinations, to be held in the Third term of each Session, and to comprise:—

1. Civil and Mechanical Engineering.
2. Office and Field Work, including Geometrical Drawing and Surveying, Levelling and Measuring, together with any two of the following subjects:—
3. Natural Philosophy applied.
4. Analytical Chemistry.
5. Geology.
6. Mathematics, including specially the elementary principles of the Differential Calculus.

Competition for this Prize in each Session to be open to all persons who are at the time, or were in the preceding year, Students of Engineering in Queen's College, Belfast, going through the Third Session of their Engineering Course, in regular order, or going through the Session which, under the sanction of the Council, in special cases shall stand instead of a Third Session of the Queen's College Engineering Course.

This prize was awarded for four years.

1869. A Bust of the Rev. P. Shuldham Henry, D.D., late President of the College, presented by the Professors and other subscribers.
1871. An oil portrait of George L. Craik, LL.D., former Professor of History and English Literature in the College, and also a photograph group of some of the Professors; presented by Messrs. Marcus Ward & Co.
1871. Bequeathed by John Porter, Esq., the sum of Three Thousand One Hundred and Ten Pounds Eight Shillings and Four Pence for the endowment of Two Scholarships in Queen's College, Belfast, to be called "The Porter Scholarships." These scholarships are each of the annual value of Fifty Pounds, and are tenable for two years. They are open to undergraduates of not less than two years standing.

1873. A deed was executed by William Druryville, Esq., establishing the "Sorella Trust."

This deed, which also provides funds for other educational purposes not connected with the College, endows two Studentships in Queen's College, Belfast, to be called "The Druryville Studentships." These studentships are open to any person who is recognised by the Council or other Governing body of Queen's College, Belfast, as a student of three or more years standing in any Faculty, provided that the last of the three or more years which give such standing, has been spent in Queen's College, Belfast, and has been the year preceding, or the year but one preceding the examination.

They are given, one, for the encouragement of the study of Mathematical and Physical Science, the other, for the encouragement of the study of Natural Science, in alternate years. Each person obtaining a Studentship receives £45 for the first year, and £100 for the second year.

1873. Given by the Widow and Children of the late John Robinson McClean, Esq., Civil Engineer, London, through the hands of the Rev. F. S. Henry, D.D., the late President, the sum of Five Hundred Pounds, to be expended in the purchase of Scientific works for the Library of Queen's College, Belfast.
